

FBOX ADJUST PARAMETERS

1 FBox: Slave Link IP (MOD-SLink IP), Family: Modbus 2 Slave

User Name:	Modbus
Option station number	Range Intern
First station number	0
Last station number	255
Ethernet module	Default
Channel	Channel 4
Port number	502
Protocol	Modbus/TCP
Timeout [s]	10,0
Idle disconnect time [s]	10
Min response delay [ms]	0
Application timeout [ms]	100
Load on the CPU	50 %
Requests received	0

2 FBox: Slave Application (MOD-SApp), Family: Modbus 2 Slave

FBox Reference:	Modbus
Option station number	Intern
Station number	136
Reject not mapped requests	None
Address offset	0 (SAIA)
Integer 32 bits format	No 32 bits
Integer 32 bits offset	10000
Floating-point format	No Fp
Floating-point offset	20000
Request received	0
